

Set the Standard with **SGNA**

Did you know SGNA produces position statements and standards and guidelines that provide a framework for the safe and effective practice of gastroenterology/endoscopy nursing — in all settings?

About the Practice Documents

Practice documents address topics directly affecting the practice of GI nursing such as:

**SEDATION AND
ANALGESIA**

**INFECTION
PREVENTION**

**ROLE
DELINEATIONS**

SAFETY

SGNA
Society of Gastroenterology Nurses and Associates, Inc.

Because they are **developed, reviewed and updated by experienced GI nurses and subject-matter experts**, SGNA practice documents reflect a depth of knowledge about the specialty and the role of nurses and associates that only SGNA can provide. Information within the practice documents is based on the highest levels of evidence possible.

Using the Practice Documents

In addition to providing the practice documents, SGNA has also created several resources to help you discuss their use with your manager or supervisor, on an accrediting organization's survey.

These include a PowerPoint presentation, scripts and more!

To view SGNA practice documents or learn more about how to implement them in your unit, visit www.sgna.org/Practice
