

**SGNA Pulmonary Manual**  
**Subject Matter Expert Application**

SGNA is soliciting volunteers with relative subject matter expertise to serve on a Work Group for the revision of the ***SGNA Pulmonary Manual, 4<sup>th</sup> edition***. The targeted revision cycle will run from **October 2021 to March 2022** and require approximately **10-12 hours/month**.

During the product revision, Work Group members are expected to do the following:

1. Review the assigned content carefully
2. Identify and update inaccuracies and/or outdated information
3. Identify current and accurate content for inclusion
4. Examine and Revise review questions (if applicable)
5. Update bibliography with current resources
6. Review artwork for currency and precision (if applicable)
7. Review relevant glossary items for accuracy (if applicable)

Please submit your application to SGNA Headquarters by email to [hsmith@sgna.com](mailto:hsmith@sgna.com) by **October 18, 2021**.

**Name:** \_\_\_\_\_ **Credentials:** \_\_\_\_\_

**Address:** \_\_\_\_\_

**City:** \_\_\_\_\_ **State:** \_\_\_\_\_ **Zip:** \_\_\_\_\_

**Facility Name:** \_\_\_\_\_

**Phone Number:** \_\_\_\_\_ **Email:** \_\_\_\_\_

**Are you an SGNA member?**  Yes  No

1. Please select all of the following that you have relative subject matter expertise in and may be interested in reviewing/updating:

- Safety
- Standard Equipment for Pulmonary Endoscopic Procedures
- Nursing Responsibilities and Care  
*[Pre-procedure assessment and care; Patient teaching; Responsibilities during the procedure, Post-procedure assessment and care]*
- Key Procedures  
*[Flexible bronchoscopy (adult & pediatric); Rigid bronchoscopy]*
- Diagnostic Pulmonary Procedures  
*[Thoracentesis; Pleural biopsy; Endobrachial ultrasound; Electromagnetic navigation bronchoscopy; Fluorescence bronchoscopy]*
- Therapeutic Pulmonary Procedures  
*[Intrabronchial brachytherapy; Chest tube insertion (thoracostomy); Cryotherapy; Endobronchial electrosurgery/coagulation; Foreign body removal; Laser (photocoagulation/vaporization) therapy; Photodynamic therapy; Tracheobronchial stents; Bronchial thermoplasty; Video intubation scopes]*
- Specimen Collection  
*[Arterial blood gases sampling; Endobronchial and transbronchial biopsy; Bronchial brushings; Bronchial lavage/washings; Transbronchial needle aspiration]*
- Medications Commonly Used During Pulmonary Procedures  
*[Including oxygen therapy for patients undergoing bronchoscopic pulmonary procedures]*
- Special Considerations for Certain Patient Populations  
*[Mechanically-ventilated patients; Pediatric patients; Elderly patients; Obese patients]*

2. Please describe your background and experience as it relates to (describe all that apply):  
Pulmonary:

The subject(s) you listed above:

3. Have you ever revised/edited a publication before? If yes, please describe:
