Nursing Intervention During and Post Gastroenterology Procedures
Judy M. Shirley, RN, CGRN, Denise Cochran, RN, Linda V. Thompson, BSN, RN, John H. Young, RN, Georgina Morris-Beruff, RN, Genevieve Van Sickle, RN
North Florida/South Georgia Veteran’s Administration Hospital, Gainesville, Florida

Discussion
The education process will help nurses with their assessments of minor and complex procedures. Algorithms are a quick reference for intra and post procedural interventions.
