**CAUTION:** Following endoscope OEM recommendations, remove and clean all detachable scope components (valves, biopsy caps, etc.). Use all appropriate adapters as reviewed during In-Service. To confirm channel connectivity refer to In-Service Form or Scope Adaptation Charts. If there are any questions on adapting endoscopes or if new scope models become available, please contact Custom Ultrasonics.

---

**Part #16030 is a filter insert that must be replaced every 6 to 8 weeks.**

**NOTE:** Prior to ordering adapters, confirm the specific connector at the end of each adapter that plugs directly into the System 83 Plus manifold.

**Connect adapters #15008/#15008M to the High Pressure (HP) manifold port.**
(For units without high pressure ports, please contact Custom Ultrasonics.)
